Re: Egeria Densa "That Damn Water Weed"

WE'RE WINNING!!!!

Assemblyman Richard Rainey has agreed to write legislation to combat the "WEED". What he needs are letters stating the detriment of the weed and the dollar impact it has on all of us.

Example: Boatyards- Increase of engines overheating from weed intake and cost of repairs.

Real Estate- Decrease in property values due to the weed and the amount.

Impact of loss revenues to boating industry by people not boating or berthing in our area due to the weed and estimated \$ amt.

It is very important that we inundate his office with letters stating the problems and costs of the weed on our industry, properties and business' so he and staff can write responsible legislation. Please send a letter or FAX to:

Assemblyman Richard Rainey
State Capitol, Room 3173
Sacramento, CA 95814
FAX # Walnut Creek 933-9204

Thank you in advance for your help and support !!
